Introduction

The Michigan Department of Education, Office of Education Improvement and Innovation and Office of Field Services has developed a series of documents and tools that are designed to assist schools in the creation and use of an Action Portfolio that will guide and inform the school's Continuous School Improvement Planning Process.

The Action Portfolio begins with the Michigan School Improvement Framework (MSIF). The Framework was designed to:

- Provide schools and districts with a comprehensive framework that describes the elements of effective schools.
- Provide schools and districts in our state with a common way of describing the processes and protocols of practice of effective schools.
- Give direction to, support, and enhance the school improvement planning process.

The School Improvement Framework Rubrics assess the framework at the benchmark level, and provide a continuum of practice that allows buildings to identify gaps that exist between where they are in their current practice and where they want to be. The rubrics also include the EdYES! Performance Indicators that schools must use for their annual self-assessment.

The Comprehensive Needs Assessment (CNA) is another tool that has been developed as a part of the Action Portfolio. This process examines building demographics, system processes and protocols of practices, instructional program, and disaggregated student academic achievement data, so that the following questions can be answered:

- Who do we serve?
- How do we do business?
- Where are we now?
- Where do we want to be?
- What and where are the gaps?
- What is/are the root cause(s) for the gaps?
- How will we get to where we want to be?
- How will we evaluate our efforts and progress?

The CNA will help a school align these system challenges with the student achievement goals the school will establish. Ensuring that your systems are aligned with the elements of effective schools, to support your instructional program goals and objectives, is the first step to establishing the continuous school improvement process.

The School Improvement Plan template (SIP) has been designed to provide schools and districts with a common planning template that addresses student learning and system needs that have been identified through the schools? Comprehensive Needs Assessment. It has also been designed to address any federal, state and locally required elements that must be contained in a School Improvement Plan.

The School Improvement Framework, Rubrics, CNA, and the School Improvement Planning template were developed as a comprehensive and continuous process that can provide schools and districts with a way to look at and discuss internal systems and assess where the school is, in relationship to these elements of effective schools.

School Improvement Plan
School Information

School: Lake Linden-Hubbell Elem. School
District: Lake Linden-Hubbell School District
Public/Non-Public: Public
Grades: PK, K, 1, 2, 3, 4, 5, 6
School Code Number: 02080
City: LAKE LINDEN
State/Province: Michigan
Country: United States
Vision

Vision Statement
Lake Linden-Hubbell's elementary students, teachers, parents, and staff working together to develop citizens who will reach their full potential as contributing members of society.

Mission Statement
We at Lake Linden Hubbell Elementary...

Commit to an ongoing education that promotes critical thinking, communication and problem solving.
Advocate the development of student talent, as well as collaboration with parents and the local community.
Reinforce the values of mutual respect, courtesy, and appreciation for diversity.
Encourage students to develop responsibility, accountability and self discipline.

Beliefs Statement
Lake Linden-Hubbell Elementary believes that all children can learn and be successful according to their own abilities and interests and that education is a partnership between the community, parents, school and students.

Goal 1: Elementary Math Achievement

Content Area: Math  
Goal Source: cna  
Development Status: Approved

Student Goal Statement: By June 2010, students will be able to increase their ability to solve multi-step word problems and increase their ability to comprehend math concepts related to the GLCE's with 80% accuracy.

Gap Statement: Students need to increase their ability to comprehend and apply Social studies concepts relating to the GLCEs based on daily classroom performance, classroom evaluations, MEAP Results-35% of 9th grade students scored a 3 or 4, Merit Exam Results-10% of 11th grade students scored 3 or 4, and teacher perception.

Cause for Gap: Students understand math processes, but struggle with basic skills needed. (Basic operations)

Multiple measures/sources of data you used to identify this gap in student achievement: Student achievement, different terminology used, teacher observation during in-class work.

What are the criteria for success and what data or multiple measures of assessment will be used to monitor progress and success of this goal? Criteria for success: 85% of students will be able to score "proficient" on the MEAP assessment.

Multiple measure of assessments to be used that will provide authentic assessment of pupils' achievement, skills, and competencies: MEAP Test Results, Classroom Assessments.

Goal 2: Elementary ELA achievement

Content Area : English Language Arts
Goal Source : cma
Development Status : Approved

Student Goal Statement : Reading: By June 2010, the number of students who will read and re-read all parts of a selection and use appropriate strategies to find main ideas and important details will increase by 10%.

Writing: By June 2010, the number of students writing coherently by using specific examples and details will
increase by 10%.

**Gap Statement:** Reading: Students need to increase their ability to read and re-read for information while reading expository and/or narrative text.
Writing: Students need to increase their ability to edit and revise their writing by adding more specific examples and details.

**Cause for Gap:** Reading: Lack of "active" reading. Students are not going back into texts to look for information.
Writing: Desire to be finished/completed. Tough concept for students to grasp; students not knowing they need more or what they need to improve writing.

**Multiple measures/sources of data you used to identify this gap in student achievement:** Reading: MEAP item analysis report, Chapter Tests, DIBELS, MLPP, Running Records, Classroom Assessments, Read Naturally, The Four Blocks Literacy Model
Writing: Writing Portfolios, Classroom Writing Samples, MEAP Results, 6+1 Traits of Writing, The Four Blocks Literacy Model

**What are the criteria for success and what data or multiple measures of assessment will be used to monitor progress and success of this goal?**
Reading: At least 75% of Kindergarten through Sixth grade students will be "at benchmark" on DIBELS assessments at the end of each year. At least 80% of all students who take the Reading MEAP assessment will score "proficient" or better on the Reading portion of the MEAP.

Writing: At least 80% of all students who take the Writing MEAP assessment will score "proficient" or better on the Writing portion of the MEAP.

**Contact Name:** ELA Teachers

**List of Objectives:**

<table>

1. Describe how all stakeholders are involved in the planning, design, monitoring and evaluation of this institution improvement plan.
   All of the stakeholders have given input in the planning, designing, monitoring and evaluation of the improvement plan as well as decisions and observations in other school matters.

2. Describe how decisions about curriculum, instruction and assessment are made at this institution, and how all stakeholders are involved in the process.
   Decisions concerning curriculum, instruction and assessment are made from a review of input from all involved at the school. Committee members review these suggestions and help to formulate into goals.

3. Describe how institution and student information and progress will be shared with all stakeholders in a language that they can understand.
   All student information and progress will be shared with all stakeholders in the language that they understand which for all is currently English.
Statement of Non-Discrimination

Federal Office for Civil Rights

The institution complies with all federal laws and regulations prohibiting discrimination and with all requirements and regulations of the U.S. Department of Education. It is the policy of this school that no person on the basis of race, color, religion, national origin or ancestry, age, gender, height, weight, marital status or disability shall be subjected to discrimination in any program, service or activity for which the district/school is responsible, or for which it receives financial assistance from the U.S. Department of Education.

Contact Information

Schools/Districts are required to designate an employee to coordinate efforts to comply with and carry out non-discrimination responsibilities.

Position of Contact: Craig Sundblad-Principal

Address: 601 Calumet St.

Telephone Number: (906) 296-6211

Conclusion

1. What Professional Learning activities will you need to provide to support the successful implementation of this school improvement plan?
   The professional learning activities needed to support the successful implementation of this plan will include instruction and support for the school improvement team from the Copper Country ISD and release time for the entire staff with the appropriate ISD sponsored guidance to review the state benchmarks and maintain curriculum alignment.

2. How has the institution integrated its available fiscal resources to support this school improvement plan?
   Lake Linden-Hubbell Elementary School provides financial and other resources to support the implementation of this school improvement plan. This includes providing for teacher release time (arranging for subs), providing in-services and training, and providing the materials necessary including writing portfolios and storage facilities.

   Necessary changes to the District's technology will also be made.

3. How has the institution assessed the need for and integrated the use of technology to support this school improvement plan?
   Input on the school's technological needs was taken from the teachers. This was reviewed by both the technology committee and the school improvement team. These needs will be taken into account and technological improvements will be made for the upcoming school year.
