8510 - WELLNESS

As required by law, the Board of Education establishes the following wellness policy for the Lake Linden-Hubbell Public School District.

The Board recognizes that good nutrition and regular physical activity affect the health and well-being of the District's students. Furthermore, research concludes that there is a positive correlation between a student's health and well-being and his/her ability to learn. Moreover, schools can play an important role in the developmental process by which students establish their health and nutrition habits by providing nutritious meals and snacks through the schools' meal programs, by supporting the development of good eating habits, and by promoting increased physical activity both in and out of school.

The Board, however, believes this effort to support the students' development of healthy behaviors and habits with regard to eating and exercise cannot be accomplished by the schools alone. It will be necessary for not only the staff, but also parents and the public at large to be involved in a community-wide effort to promote, support, and model such healthy behaviors and habits.

The Board sets the following goals in an effort to enable students to establish good health and nutrition habits:

A. With regard to nutrition education, the District shall:

1. Nutrition education standards and benchmarks shall be age-appropriate and culturally relevant.
2. The standards and benchmarks for nutrition education shall be behavior focused.
3. Nutrition education shall extend beyond the classroom by engaging and involving the school's food service staff.
4. Nutrition education posters, such as the Food Pyramid Guide, will be displayed in the cafeteria.
5. Nutrition education may extend beyond the school by engaging and involving families and the community.
6. Nutrition education shall reinforce lifelong balance by emphasizing the link between caloric intake (eating) and exercise in ways that are age-appropriate.
7. Nutrition education benchmarks and standards include a focus on media literacy as it relates to food marketing strategies.

8. Nutrition education standards and benchmarks promote the benefits of a balanced diet that includes fruits, vegetables, whole grain products, and low-fat and fat-free dairy products.

B. With regard to physical activity, the District shall:

1. Physical Education

- a. A sequential, comprehensive physical education program shall be provided for students in K-12 in accordance with the standards and benchmarks established by the State.
- b. All students in grades K-9, including those with disabilities, special health care needs, and in alternative educational settings (to the extent consistent with the students' IEPs), shall receive instruction in physical education.
- c. The physical education curriculum shall provide sequential instruction related to the knowledge, attitudes, and skills necessary to participate in lifelong, health-enhancing physical activity.
- d. Physical education classes shall provide students with opportunities to learn, practice, and be assessed on developmentally appropriate knowledge, attitudes, and skills necessary to engage in lifelong, health-enhancing physical activity.
- e. The sequential, comprehensive physical education curriculum shall stress the importance of remaining physically active for life.
- f. Planned instruction in physical education shall be sufficient for students to achieve a proficient level with regard to the standards and benchmarks established by the State.
- g. The K-12 program shall include instruction in physical education as well as opportunities to participate in competitive and non-competitive team sports to encourage lifelong physical activity.
- h. Planned instruction in physical education shall require students to be engaged in moderate to vigorous physical activity.
- i. Planned instruction in physical education shall meet the needs of all students, including those who are not athletically gifted.
- j. Planned instruction in physical education shall be presented in an environment free of embarrassment, humiliation, shaming, taunting, or harassment of any kind.
- k. Planned instruction in physical education shall include cooperative as well as competitive games.
- l. Planned instruction in physical education shall take into account gender and cultural differences.

2. Physical Activity

- a. Physical activity should not be employed as a form of discipline or punishment.
- b. Physical activity and movement shall be integrated, when possible, across the curricula and throughout the school day.
- c. All students in grades K-6 shall be provided with a daily recess period.
- d. All students in grades 5-12 shall have the opportunity to participate in extracurricular activities and intramural programs that emphasize physical activity.

- e. All students in grades 7-12 shall have the opportunity to participate in interscholastic sports programs.
- f. In addition to planned physical education, the school shall provide age-appropriate physical activities (e.g., recess during the school day, intramurals and clubs before and after school, and interscholastic sports) that meet the needs of all students, including males, females, students with disabilities, and students with special healthcare needs.
- g. All after-school programs shall provide developmentally appropriate physical activity for the students who participate.

C. With regard to other school-based activities :

Free drinking water shall be available to students during designated meal times and may be available throughout the day.

1. The schools shall provide at least twenty-five (25) minutes daily for students to eat.
2. The schools shall schedule mealtimes so there is minimum disruption by bus schedules, recess, and other special programs or events.
3. The school shall provide attractive, clean environments in which the students eat.
4. The schools may provide opportunities for staff, parents, and other community members to model healthy eating habits by dining with students in the school dining areas.
5. The schools may demonstrate support for the health of all students by hosting health clinics and screenings and encouraging parents to enroll their eligible children in Medicaid or in other children's health insurance programs for which they may qualify.
6. Schools in our system utilize electronic identification and payment systems, therefore, eliminating any stigma or identification of students eligible to receive free and/or reduced meals.
7. Students are discouraged from sharing their foods or beverages with one another during meal times, given concerns about allergies and other restrictions on some students' diets.

D. Additionally, the District shall:

1. encourage students to increase their consumption of healthful foods during the school day;
2. create an environment that reinforces the development of healthy eating habits, including offering the following healthy foods:
 - a. a variety of fresh produce to include those prepared without added fats, sugars, refined sugars, and sodium
 - b. a variety of vegetables daily to include specific subgroups as defined by dark green, red/orange, legumes, and starchy
 - c. whole grain products - half of all grains need to be whole grain-rich upon initial implementation and all grains must be whole grain-rich within two (2) years of implementation
 - d. fluid milk that is fat-free (unflavored and flavored) and low-fat (unflavored)
 - e. meals designed to meet specific calorie ranges for age/grade groups
3. eliminate trans-fat from school meals
4. require students to select a fruit or vegetable as part of a complete reimbursable meal

Furthermore, with the objectives of enhancing student health and well being, and reducing childhood obesity, the following guidelines are established:

- A. In accordance with Policy 8500, entitled Food Service, the food service program shall comply with Federal and State regulations pertaining to the selection, preparation, consumption, and disposal of food and beverages as well as to the fiscal management of the program.
- B. As set forth in Policy 8531, entitled Free and Reduced Price Meals, the guidelines for reimbursable school meals are not less restrictive than the guidelines issued by the U.S. Department of Agriculture (USDA).
- C. The food service program will strive to be financially self-supporting; however, if it is necessary to subsidize the operation, it will not be through the sale of foods with minimal nutritious value.
- D. The food service program will provide all students affordable access to the varied and nutritious foods they need to be healthy and to learn well.
- E. All foods available on campus during the school day shall comply with the current USDA Dietary Guidelines for Americans, including competitive foods that are available to students a la carte in the dining area, as classroom snacks, from vending machines, for classroom parties, or at holiday celebrations.
- F. All foods available to students in the dining area during school food service hours shall comply with the current USDA Dietary Guidelines for Americans, including competitive foods available to student a la carte or from vending machines.
- G. All foods available on campus at any time shall comply with the current USDA Dietary Guidelines for Americans, including competitive foods that are available to students a la carte in the dining area, as well as foods that are served as classroom snacks, from vending machines, for fund raisers, for classroom parties, at holiday celebrations, at concession stands, or at any school-related event.
- H. The school food service program
- I. will provide all students affordable access to the varied nutritious foods they need to be healthy and to learn well regardless of unpaid meal balances and without stigma.
- J. All food service personnel shall receive pre-service training in food service operations.
- K. Continuing professional development shall be provided for all staff of the food service program.
- L. All food and beverages that are provided, other than through sale, on the school campus during the school day (which may include classroom snacks, shall comply with the current USDA Dietary Guidelines for Americans.

The Board designates the Superintendent as the individual(s) charged with operational responsibility for verifying that the District meets the goals established in this policy.

The Superintendent shall appoint a District wellness committee that meets at least two (2) times per year and includes parents, students, representatives of the school food authority, educational staff (including health and physical education teachers), mental health and social services staff, school health professionals, members of the public and school administrators to oversee development, implementation, evaluation and periodic update of the wellness policy. The Wellness Committee shall be an ad hoc committee with members recruited and chosen annually. School-level health advisory teams may assist in the planning and implementation of these Wellness initiatives.

The Wellness Committee shall be responsible for:

- A. assessment of the current school environment;
- B. review of the District's wellness policy;
- C. presentation of the wellness policy to the school board for approval;

D. measurement of the implementation of the policy;

E. recommendation for the revision of the policy, as necessary.

Before the end of each school year the Wellness Committee shall recommend to the Superintendent any revisions to the policy it deems necessary and/or appropriate.

The Superintendent shall report annually to the Board on the progress of the Wellness Committee and on its evaluation of policy implementation and areas for improvement, including status of compliance by individual schools and progress made in attaining goals of policy.

The Superintendent is also responsible for informing the public, including parents, students and community members, on the content and implementation of this policy. In order to inform the public, the Superintendent shall distribute information at the beginning of the school year to families of school children, include information in the student handbook and post the policy on the District's website, including the Wellness Committee's assessment of the implementation of the policy.

The District shall assess the Wellness Policy at least once every three (3) years on the extent to which schools in the District are in compliance with the District policy, the extent to which the District policy compares to model wellness policies, and the progress made in attaining the goals of the District Wellness Policy. The assessment shall be made available to the public on the School District's website.
